

Native Trees

Maggie Redfern

Connecticut College
ARBORETUM

A photograph of a forest scene with various layers of vegetation. The image is annotated with four black boxes containing white text labels: 'Canopy' at the top, 'Understory' in the middle, 'Shrubs' in the lower middle, and 'Groundcover' at the bottom right. The forest features tall trees with green and white blossoms, a dense layer of pink and purple flowering shrubs, and a ground covered in green grass and rocks. A dirt path winds through the scene.
